DETAILED ACTION

Claim Objections

Claims 1-6 are objected to because of the following informalities: Claim 1 recites the terms the mercury, the UV, the transparent plastic. These terms lack proper antecedence. Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wolff US Patent No. 4,835,400 in view of Ganz US Patent No. 6,764,501.

Wolff discloses a tanning device comprising the recited limitations except the use of fluorescent material comprising a coumarin or perylene dye. Ganz teaches the use of perylene as a fluorescent material. Therefore, at the time of the applicant's invention, one skilled in the art would have used perylene as an equivalent alternative fluorescent dye in order to provide the desired tanning wavelength/energy.
